

# UNIFOLD® CARGO

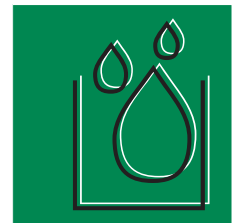

TPS RENTAL SYSTEMS IBC

**UNIFOLD® CARGO** is designed specially for the storage and transportation of non liquid products. Its lightweight construction combined with a fully removable side panel make it user friendly for loading and unloading of products. The container's unique folding mechanism allows assembly and dis-assembly in less than 60 seconds. The container can be stacked 7 high for return transportation making full utilisation of the vehicle load space.

EFFICIENT SOLUTIONS

UNI-FOLD®

# UNIFOLD® CARGO

## Specifications

Frames: 25mm RHS electroplated steel tubes  
Panels: 0.9mm colour coated sheet steel  
Fittings: Electroplated soft steel  
Pallet: Galvanised soft steel - 4 way entry

Volume capacity:	1 cubic metre
External dimensions (LxWxH):	1200x1000x1000mm
Flat pack dimensions (LxWxH):	1200x1000x330mm
Tare weight:	98kg
Maximum dynamic load:	1000kg
Maximum static load:	5000kg

### Operating capabilities:

Free stacking height - unfolded:	2 units
Free stacking height - folded:	10 units
Return ratio per vehicle load space:	7 units
Functional temperature range:	-30°C - +65°C
